

Whilst living in our virtual worlds for the last several weeks, we have witnessed the importance of having role models in young people's lives to inspire them, guide them, sometimes challenge them and ultimately, help them grow and develop the skills they need to accomplish whatever they set out to do.

To empower our students with the tools to shape their future, we have organised six Global Mentoring interactive webinars.

What is the KSI Global Mentoring Programme?

The KSI Global Mentoring Programme brings world-class inspirational role-models to KSI students, families and communities. The purpose of this unique programme is to keep our students engaged, internationally-minded and inspired during these challenging times. Our speakers will share their personal stories on what inspired them as young adults, what they do, how they overcame any challenges faced on their journey, and how they have adapted what they do to the constraints imposed by the current pandemic.
